

ATTACHMENT A**CLEAN COURTESY COPY OF INDEPENDENT CLAIMS 1 AND 2, AS
AMENDED**

5

1. (Currently Amended) A charitable donation management and reporting system comprising:

10 a) a donor experience object-oriented program module in communication with a donor via a hyperlink from a charitable organization's website;

b) said donor experience object-oriented program module, responsive to a donor's request, presents the donor an opportunity to purchase a selected asset;

15 c) a give object-oriented program module in communication with said donor experience object-oriented program module, said give object-oriented program module presenting to the donor selected donation levels responsive to the selection of said asset;

d) a delivery object-oriented program module in communication with said donor experience object-oriented program module, said delivery object-oriented program module receiving selected delivery information for said asset;

20 e) a payment object-oriented program module in communication with said delivery object-oriented program module, said payment object-oriented program module receiving selected payment information from the donor responsive to purchase of said asset;

25 f) a confirmation object-oriented program module in communication with said payment object-oriented program module, said confirmation object-oriented program module presenting to the donor confirmation of purchase of said asset; and

g) said confirmation object-oriented program module receiving selected transactional data from said give object-oriented program module, said delivery object-oriented program module, and said payment object-oriented program module.

2. (Currently Amended) A method for charitable donation management and reporting, comprising the steps of:

- a) receiving at a first Internet website an indication of interest from a donor to make a donation to the charitable organization, the first Internet website being an Internet website of a charitable organization;
- b) hyperlinking the donor to a second Internet website to allow the donor to make the donation, the second Internet website not being an Internet website of the charitable organization;
- c) displaying at least one asset available for purchase responsive to the donor's indication of interest to make the donation to the charitable organization;
- d) displaying a donation level in concert with said asset to the donor;
- e) receiving an indication from the donor to purchase said asset;
- f) displaying selective delivery information responsive to said purchase of said asset;
- g) displaying selective payment information responsive to said purchase of said asset;
- h) displaying selective confirmation information responsive to said purchase of said asset; and
- i) collecting transactional data concerning the donor, the donation made by the donor, and the purchase of the asset by the donor.
